## *I make Tupperware count for me.*

“ My love for Tupperware® has evolved for over 15 years. I originally joined Tupperware because I wanted to fill my cupboards with Modular Mates® but it quickly changed to a full-time career to support myself and my family as it offered me a flexible schedule. As a newly single mom, Tupperware’s flexibility has allowed me to spend more time with my three kids and adjust my work schedule to prioritize my values and my goals. I can work both in person and virtually and adjust as needed. Tupperware® is attractive to people seeking extra empowerment, extra income, and financial independence. It offers a variety of opportunities to earn income and self-development in a way that works for you and your family. Tupperware® is a quality product that continues to evolve. I love sharing products that can truly save people time, and money, and promote healthier eating. The best part of being a Tupperware business owner is that I can help others, not only by offering them amazing products, but also by providing them with the opportunity to live life on their terms. It has given me the confidence to reach outside my comfort zone and set bigger goals. However, most importantly, it has allowed me the opportunity to help others achieve the same. The feeling that you can make a difference in people’s lives, and that you have the power to inspire them is honestly the most beautiful recognition you can receive. My advice for achieving success is to focus on the Tupperware lifestyle, be authentic, and work your business consistently by helping others. ”
